Jasmin is just AMAZING. She helped me with the decoration of my room and it was perfect when it was finished. I was afraid (to be honest), I am not very skilled in the decoration department and it was my first time working with someone online but she was incredible, she listened to me, she was with me (online) when I had to go to the store to pick things for the room, she answered fast every single question, she is quite patient so I am extremely pleased with the results. It's my dream room.

I recommend her 100% so worthy if you want to transform your house for the better.

I am very grateful I found Jasmin. She helped me a lot with my living room design. She was very patient with me; I have to confess I was a little scared of what the end result would look like, but I trusted her with my eyes closed and the result is just fantastic!!

I love how everything turned out, I am in love with my living room, thank you so much Jasmin. I recommend her 100%

Working with Jasmin has been a wonderful experience. Even though everything was done online, since I live in Florida we were always connected and she was very attentive and helped in every time I needed her. I loved every result of her work and without a doubt I would recommend her a million times.
